

EVERDRY 4

SCUBAPRO®

The 2010 Everdry 4 Drysuit

The Everdry4 is not just an older model refurbished, it's been redesigned from the ground up to be soft and comfortable like a wetsuit. The Everdry4 was created for demanding recreational divers wanting easy-to-wear advanced dry suit protection and does that with ease. Finished in professional black with modern, metallic silver graphics and logos, this suit says SCUBAPRO quality and spirit throughout. The 4mm high-density neoprene maintains optimal thermal insulation, weighs 50% less and is significantly softer than a traditional dry suit. The fixed boots have been replaced with soft flexible neoprene socks, which fit a broad range of feet and body combinations it also means it can be worn with rock boots or neoprene boots. A convenient pocket has also been added, roomy with a zippered closure which keeps essentials close at hand.

The neck seal is a reversed rolling neoprene construction for an optimum seal and easy donning and removal. Two exterior Velcro closures offer complete adjustment and comfort. The Everdry4 still features Si-Tech® balanced side-activated inlet and adjustable outlet valves, facilitating better buoyancy operation and increased comfort, a durable dry back zipper with neoprene protection flap and the overall quality finishing detail to every millimetre is well thought out and perfected for a premium diving experience.

The CLIMATEC, it's been designed to perfectly complement the Everdry4 and any other neoprene dry suits. It's Lightweight, made from 200 weight polar fleece, water-repellent and breathable. The 2-layer soft material construction ensures comfort and warmth. Featuring 2-slider front zipper, ankle stirrups and thumb loops.
